Most interesting letters have been received from Siberia, Russia, by friends here of Mrs. F. C. Knight, who formerly lived at Garfield, where she often delightfully entertained. Mrs. Knight, with her husband and little daughter, Madeline, left here last June for Siberia, where they expect to remain for three years. Mr. Knight having an excellent position there with one of the large smelters. Siberia, to a great extent, is a wild and desolate country, but from Mrs. Knight's charming letters, friends were glad to learn that it is much more agreeable there than one might think. The climate is about the same as here—lots of snow in the winter, delightful summers, with no gnats or mosquitos. The fields of Siberia are beautifully carpeted with wild flowers of every color, Mrs. Knight says, and there are many groves of beautiful trees. Mrs. Knight, with her daughter and a governess, are the only white women in the town, which is 500 miles from the railroad, and the same distance from the border line of China. One of the most disagreeable things in Siberia are the roads from the town to the railroad, which are almost impassable. They arrived at the town with not a soul to speak their own

language to and many curious eyes upon them. The governess is able to speak the Russian language, besides several others, and Mrs. Knight is trying hard to learn the language, which is a most difficult one. They live in a large, white plaster house, which resembles the country homes of America, with large and airy rooms, with exposed rafters. Mrs. Knight keeps a number of servants, who are very good workers. Food stuffs, she says, are cheap. They pay their cook \$7.50 a month and the other servants less. For eggs they only pay seventy-five cents a hundred. There are beautiful drives around the town, which Mrs. Knight has enjoyed very much, going out for an hour or more nearly every day.

## SUPERFLUOUS HAIR

Ladies who are afflicted with superfluous hair growth should be careful in choosing a remedy. Always learn first what authorities know about a treatment before using it. Dr. Rhodes, the well-known physician, says: "In regard to DeMiracle, I find it the most satisfactory article for the removal of superfluous growths of hair on any part of the body that I have ever used. I have used it in a great many cases for the removal of objectionable growths of hair on the faces of ladies, and in no case has it ever failed to give me the most perfect satisfaction. It fulfills all the claims made for it by the manufacturers."

Better take a doctor's advice, don't be deceived with fake free treatments. Remember DeMiracle is the only method in the world which is endorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines. DeMiracle mailed, sealed in plain wrapper, for \$1.00. Your money back without question (no red tape) if it fails to do all that is claimed for it.
